

COLORS OF

Africa

Join the International Colored Gemstone Association (ICA)
June 26 - July 4, 2003 for a Gemstone Professional's eye view of one of
the most fascinating and exotic places on earth...TANZANIA, the country that
gave us the words safari...Serengeti and TANZANITE!

- See tanzanite sites at Arusha, Merelani and in the foothills of fabled Mt. Kilimanjaro;
- Visit the ruby mines at Longido and Mundarara
- Travel to Manyara National Park to view old emerald digs and new alexandrite and emerald sites
- Wonder at Ngorongoro Crater, the largest volcanic caldera in the world, and the game-filled grasslands of Serengeti National Park
- See the rhodolite mines along the Lelatema Fault, and Masai aquamarine and tsavorite digs

Number of accompanying persons: _____

ICA's Mine Tours are for the trade: gemstone professionals will visit mine sites, miners, cutters and dealers, and come away with a greater understanding and appreciation of the challenges and extraordinary effort involved in bringing colored gemstones from mine to market. Cost of ICA's Tanzanian Mine Tour is \$2,375, exclusive of airfare.

Individuals interested in participating in the Gem Mine Tour of Tanzania are requested to photocopy this form, fill it in and fax it to the ICA Head Office: **+1-212-352-9054**
